DETAILED ACTION

1. It is hereby acknowledged that the following papers have been received and placed of record in the file: Amendment on 01/24/2005.

Response to Arguments

2. Applicant's arguments, see pages 21-24, filed 01/24/2005, with respect to claims 1, 62, 90, and 105 have been fully considered and are persuasive. The 35 U.S.C. 103 rejection has been withdrawn.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: the limitation "the plurality of managed network elements comprise at least one physical element and at least one of a software application, and a software subroutine" has not been found in the prior art in combination with all the remaining limitations of the independent claims. The examiner agrees that while the Rao reference teaches a manager engine computer including a management software component, Rao does not teach nor suggest "systems and methods wherein managed elements include software applications and software subroutines" (Applicant's arguments p. 24).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
